From: Richard Flink, Hoover Power Operations Manager

Subject: Power Operations Y2K Operating Plan

You will find the back up operating plan for the dates indicated below for use in meeting Y2K concerns for the Hoover Power Operations office:

1-1-1999	(2300 12-31-98 MST thru 0200 1-1-99 MST)
9-9-1999	(2300 9-8-99 MST thru 0200 9-9-99 MST)
1-1-2000	(2300 12-31-99 MST thru 0200 1-1-00 MST)
2-28-2000 (leap year)	(2300 2-28-00 MST thru 0200 2-29-00 MST)
1-1-2001	(2300 12-31-00 MST thru 0200 1-1-01 MST)

- 1. Hoover Powerplant will be manned with a full crew of four (4) operators. We will also have communications and SCADA support personnel on site
- 2. Hoover Station Service will be isolated from the system 2300 MST till 0200 MST.
- 3. All of the Units operated out of the Hoover Control Center that are scheduled will be left in the AUTO mode; the units that are not scheduled to be on by Western Dispatch Center will be on line at speed no load (SNL) or condensing in the MANUAL mode.

- 4. Davis Dam and Parker Dam will be manned and in contact with Hoover Control Center from 2300 MST till 0200 MST.
- 5. Davis Dam and Parker Dam upon the operators discretion will place all units on Local-Auto or Local-Manual from 2300 MST till 0200 MST.
